A Senior Software Engineer with more than five years of professional experience, specializing in frontend development. A proven track record of managing large-scale software engineering projects to support deployments and integrations.

Proficient in multiple programming languages and frameworks, with a proven track record of delivering high-quality, scalable, and innovative software solutions. Skilled in leading cross-functional teams and mentoring junior developers. Strong analytical, problem-solving, and communication skills, with a passion for staying current with emerging technologies and trends in the software development industry. Ready to leverage my expertise to contribute to a dynamic and challenging software engineering role.

## Professional Experience

---

### Senior Software Engineer

*Helius Technology, Hyderabad, Telangana*

*September 2023 - Present*

- Support team for linting rules and commit messages rules to help on same project guidelines followed.
- Identify creative solutions and workflow optimizations to improve deployment timelines and reduce project roadblocks during development lifecycles
- worked on the React native project for 6 months and now working on the Nextjs project.
- Added **security** to the app by preventing *overlay*, *screenshot*, *screen-recording*, and blacklisting *remote control apps* as per user permission.
- Prevented *reverse engineering*, *root access*, *tapjacking*, *repacking*, and *debugging* for security reasons.

### Senior Software Developer

*My Operator, Noida, U.P*

*September 2022 - July 2023*

- UI/UX enhancement and added more features like *sorting/filtering* for a better *user experience*.
- Added *unit test and migrated to typescript* to prevent **type errors** and data bugs.
- Fixed *audio playback* issues while *navigating to other screens or cards*.

## Mobile Developer

*Veative Lab, Noida, U.P*

*August 2019 - August 2022*

- Added reusable components and better project structure and this project is from **scratch**, in this I have added **video-conferencing, aws-auth, firebase remote config, and payment gateway**.
- Created a **library for Unity player** to play the Unity app inside the react-native app and **controls** too.
- Secure app toward **proxy and credential tap jacking or Overlay**.

## Android Trainee

*CTD World, Noida, U.P*

*December 2018 - May 2019*

- completed 6 months of training in the last year of college.

## Education

---

B.tech in CSE July 2015 - May 2019  
Punjab Technical University at Mohali

## Key Skills

---

- React Native - Expert
- Nextjs - Competent
- React - Competent
- Javascript - Expert
- Typescript - Competent
- Java - Proficient
- Kotlin - Competent
- Jest - Proficient
- Redux - Proficient

## Languages

---

English - Proficient  
Hindi - Expert

## Software

---

- Jira
- Git
- Slack
- VDI
